

# How to set up Redemption rules in POS?

Before reward points can be redeemed, the Setup rules for reward points' redemption has to be established :

- For example, 1000 points = 50 SGD Loyalty Voucher valid for 2 months. If a customer has 1000 points, the cash register will offer to issue a 50SGD Loyalty voucher that will be printed when the customer makes the purchase.

Customer can use their loyalty voucher during payment

The screenshot shows the 'Redemption Points' setup screen in the POS Explorer. The left sidebar has a red box around the 'Redemption Points' option. The main area displays a table with one row of data:

Redemption Code	Name	Min Points To Redeem	Amount Earned
RP-01	Redemption Points	RM1,000.00	RM50.00

Below the table, the details for the selected row (RP-01) are shown:

Redemption Code: RP-01      Name: Redemption Points

Min Points To Redeem: 1,000      Amount Earned: RM50.00

Cash/Voucher: Voucher      Valid From: 01/01/2015

Description: [Empty text box]

At the bottom right, there are buttons: Create New, Save, Revert, and Delete.
