

# Product Register

In the product register the user able to view and track individual product's transactions history, quantity, and values. Below are available actions for the user from **"Product Register"** :

 View and search for product's transactions history

The screenshot shows the SAP Product Register window. At the top, there are fields for Product (set to '< Select a Product >'), Warehouse (SM01 - Main Warehouse), and Year (Year 2016). There are also input fields for From and Till dates. Below these are summary statistics: Op. Stock, Qty In, Qty Out, and Cl. Stock, all showing 0. The main area is a table with columns: Date, Document #, WH #, Warehouse, Type, Stock UOM, Batch #, Qty In, and Qty Out. The table is currently empty. At the bottom, there are filters for Type (All) and Show (Without Internal Movements), along with a Print button.

The screenshot shows the SAP Product Register window with the 'Stock Value' tab selected. The fields for Product, Warehouse, and Year are the same as in the first screenshot. The summary statistics now show Op. Value, Value In, Value Out, and Cl. Value, all showing 0. The table columns are: Date, Docume..., WH #, Warehouse, Type, Stock UO..., Batch #, Value In, Value Out, Standard ..., Standard F..., Variance ..., Variance F..., Standard ..., Variance ..., Transport ..., and Assembly ... The table is currently empty. The bottom filters and Print button are also present.
