

# Stock Import

Stock Import allows user to import products' stock into the system inventory. This is usually done when user first use the system, to populate it with their existing inventory.

**Note:** This process does not post to balance sheet accounts, it only post to inventory.

Below are available actions for the user from **"Stock Import"** view:

-  Create new stock import
-  Update stock import details
-  Delete stock import
-  View and search stock import details

## Create New Stock Import:

1. Click on **“Create New”** at the top right of screen of **“Stock Import List”** tab, it will open **“Stock**

**Import** tab with empty form

2. Select a warehouse from the **“Warehouse”** drop-down list on top left side of screen. It will fill up the form with the warehouse’s info

3. Fill up stock import information on the top half of screen

4. Click **“Save”** button at the bottom right side of screen

5. Filter the products list by selecting a brand from **“Product Brand”** drop-down list. Add product into the stock import by searching for the product from the product drop-down list in the table on **“Items / Articles”** tab

6. Enter the product’s info and click  button to add the product into the stock import

7. Repeat steps 5-6 to add more products into the stock import

8. Click on **“Notes / Attachments”** tab at the middle of screen to add notes or files attachment for the stock import

9. Click on **“Save”** button at the bottom right of screen when completed

10. Click on **“Confirm Stock Import”** button at the

bottom of screen to confirm the stock import

11. Click on **“Post To Inventory”** button at the bottom of screen to post the stock import. A link to putaway document will show up above **“Generate Report”** button after the posting

The screenshot shows the 'Stock Import' window. At the top right, a 'Posted' button is highlighted with a red box. Below it, the 'Document Number' field is highlighted with a red box and contains the value 'STI-0006'. The 'Import Details' section shows 'Warehouse' as 'Tuas01 - Tuas Warehouse' and 'Staging Locator' as 'Tuas01-Staging'. The 'Items / Articles' table lists one item: 'BD07-007613' (SK-II Signs Eye Mask) with a quantity of 1. At the bottom, the 'Putaway' field is highlighted with a red box and contains 'PUT16-080205'. The 'Generate Report' button is also visible.

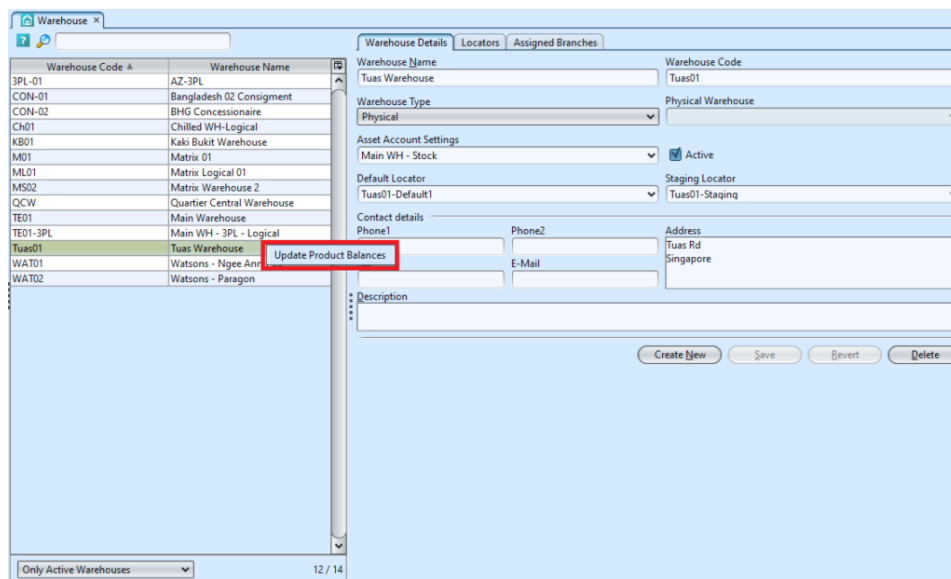

The screenshot shows the 'Putaway' window. At the top right, a 'Drafted' button is visible. Below it, the 'Source Document' field is highlighted with a red box and contains the value 'STI-0006'. The 'Details' section shows 'Warehouse' as 'Tuas01 - Tuas Warehouse' and 'Staging Locator' as 'Tuas01-Staging'. The 'Generate Report' button is visible at the bottom.

12. Click on **“Generate Button”** button at the bottom of screen to generate the stock import report, a window will come up showing print report options. User can print report, export the report as PDF or excel, or preview the report

The screenshot shows the 'Stock Import' window with a 'Report Options' dialog box open. The dialog box has a title bar 'Report Options' and a close button. It contains the text 'Print/export/preview the generated report.' and a section 'Select a Report Format' with a radio button selected for 'A4 Format'. At the bottom of the dialog are buttons for 'Print', 'Export', 'Preview', and 'Cancel'. The 'Generate Report' button in the background is highlighted with a red box.

13. Open **“Inventory – Warehouse (Master)”**.

14. Right-click on the warehouse (of the completed Stock Import) from the list of warehouse on the left, and select option ***“Update Product Balances”*** for the warehouse. This step updates the warehouse’s opening balance in some of the inventory reports.
