

Point Of Sale (POS module)

The purpose of the Point Of Sale application is to handle direct sales transaction at the company's warehouse or designated area. Posting of retail transactions from POS Entry to account is done here. Below actions are available under **"Point of Sale"**:

-  Create new sales transaction;
-  Update, delete, view and search for sales transaction details.
-  View/Post POS Entry Day Closings to General Ledger

The screenshot displays the 'Point Of Sale' application window. At the top, there are search filters for Customer, Sales Rep, Year, From, Till, and Branch. Below these filters is a table listing sales transactions. The table has columns for Date, Document #, Reference #, Customer #, Customer Name, Sales Rep, Currency, Grand Total, and Status.
