

Assign Product Into Groups / Categories

1. Click on Inventory tab / Masters / Product Groups to assign products into product group(s) (for example group by vendors, brands, colors, size, etc.)
2. Click on **“Unassigned Products”** under **“Product Groups”** table
3. Filter the products by typing search parameter in the search textfield below

4. Select which product(s) to assign to a particular product group/category, then click on the refresh button
5. Select which product group from the drop down list, then click **“OK”** button
