## **Inventory – Reports**

In Inventory Reports view, user is able to generate general and analysis reports for stock inventory, products, and related warehouse. The user can generate and print the list of the inventory reports based on the selected Criteria. The following are the available reports:-

Report Description	Explanations
General Reports	
Inventory Document Listing	Shows Inventory Document List transacted in a given period of time
Product List Report	Displays the detail of all the products under a selected product group, product brand, product market category as of today
Bill of Materials Report	Displays detail of all Bill Of Materials under the given product group, product brand, product market category as of today
Locator Stock List Report	Displays current stock status report per locator with Batch Number and Expiry Date as of today
Product Movement Report	Display the detail of the product movement during a given period
Item Costing Report	Display Item Costing Details for the selected product group, product brand, product market category as of today
Product Stock Status Report	Display product stock status in the selected warehouse for the selected product group, product brand, product market category during a given period as on a selected day
Stock in Transit Summary Report	Display the summary of the In-Transit Stock for the selected warehouse, product group, product brand, product market category on a selected day
Stock Adjustment Summary Report	Shows the summary of the Stock Adjustment for the selected warehouse, product group, product brand, product market category during a given period
Stock Adjustment Detailed Report	Shows the detail of the Stock Adjustment for the selected warehouse, product group, product brand, product market category during a given period
Warehouse Register Report	Shows for the selected warehouse, the detail of the stock available for a selected product group, product brand, product market category as of today. It will display the On Hand Qty, Reserved Qty, Staging Qty, Unusable Qty and finally the Available Qty.
Inventory Cost Summary Report	Shows for the selected warehouse, the summary of the inventory value of stock available for a selected product group, product brand, product market category as on a selected date. It will display the Standard Cost, Standard Forex, Variance Cost, Variance Forex, Transport Cost, Standard Duty, Variance Duty, Total Cost in Inventory

Analysis Reports					
Inventory Turnover Report	Shows the Inventory Turnover, a measure of the number of times the Inventory is sold in the selected period. The equation for the Inventory Turnover is equal to the COGS divided by the Average Inventory				
Month Days Inventory Outstanding Report	Shows the Monthly Days Inventory Outstanding, an efficiency ratio that measures the average number of days the company holds its inventory before selling it on the selected month.				
Product Month on Hand (MOH) Analysis Report	Shows for the selected warehouse, the detail of the MOH for a selected product group, product brand, product market category for a selected period. It will display the On Hand Qty, Average Monthly Sales and the DOH (Days on Hand) Qty				
Inventory Ageing Summary Report	Shows for the selected warehouse, the summary of the inventory ageing (either in value or in quantity) for a selected product group, product brand, product market category as on a selected date.				
Product Ageing Summary Report	Shows for the selected warehouse, the detail of the product DOH (either in value or in quantity) for a selected product group, product brand, product market category as on a selected date. It will give the total Qty In and Qty Out during the period and display the DOH for the product				
Product Expiry Summary Report	Shows product expiry summary showing Expired, 1-30, 31-60, 61-90, 91-180, > 180 days in quantity, value				
12 Month Stock Status Report	Display a graphic representation of the 12 month rolling status for the selected warehouse, the detail of the product DOH (either in value or in quantity) for a selected product group, product brand, product market category as on a selected month				
Inventory Balance by Last Sales	Shows for the selected warehouse, the detail of the inventory balance per product in 6 months range (based on last sales date from the selected month). The parameters that can be selected are product group, product brand, product market category as on a selected date				
Inventory Accuracy Report	Shows for the selected warehouse, the stock take inventory accuracy (either in value or in quantity) for a selected product group, product brand, product market category during a given period
