

How to define Reward Points in the POS?

Nota : Before reward points can be redeemed, the Setup rules for reward points' redemption has to be established.

How do we define the Reward Points for the Loyalty Program, the reward points can be defined as follows:-

- Select the POS tab/Masters/Reward Points, you can define the rule for rewarding points.

For example:

1 US\$ of purchase = 1 Loyalty point. The points are valid for one year and this rule is valid up to 31st Dec 2015.

The screenshot shows the 'POS Explorer' software interface for configuring 'Reward Points'. The left sidebar has 'Masters' expanded, with 'Reward Points' selected. The main area displays a table with one record:

Code #	Name	Points to Issue	For Amount Spent	Has Expiry	Days Valid
RW01	Reward Points - Loyalty	1	1.00	<input checked="" type="checkbox"/>	65

The right-hand configuration panel for 'Reward Points - Loyalty' (Code: RW01) includes the following fields:

- Points to Issue: 1
- For Amount Spent: RM1.00
- Has Expiry:
- Days Valid: 65
- Valid From: 01/01/2015
- Valid Till: 31/12/2015
- Provision Account: 0014 - Provision for customers rewards points
- Expense Account: 501015 - Reward Points given to customer
- Is Active:

Buttons at the bottom include 'Create New', 'Save', 'Revert', and 'Delete'. A status bar at the bottom indicates 'Selected row 1 from the Total 1 records.'
