

How to select the Customer in the ticket?

When a repeat Customer returning to purchase more items from the store the following steps will apply:

- Select Customer from customer database by using Customer name or phone number
- Customer reward points will be shown next to customer textfield

The screenshot shows a 'Point of Sale Entry' form with the following fields:

Date	02/03/2015	Receipt	<-AUTO-GENERATED->
Cashier	EMP003 - Elvy ee	Sales Staff	
Customer	Elizabeth Tan Liz	Loyalty Joined On Points	09/02/2015 0

The 'Customer' and 'Loyalty Joined On Points' fields are highlighted with red boxes. The 'Loyalty Joined On Points' field includes a date dropdown and a numeric input field with '+' and '-' buttons.

The cashier is able to remind the customer the balance of points as a service (subject to Store SOP)
