

# Journal

Journal is a business diary in which all financial data pertaining to the day to day business transactions of a firm is recorded using double-entry bookkeeping system. Depending on the nature of its operations and number of daily transactions, a company may keep several types of specialized journals such as cash journal (cash book), purchases journal, and sales journal.

All accounting transactions are recorded through journal entries that show account names, amounts, and whether those accounts are recorded in debit or credit side of accounts. Below actions are available under **“Journal”**:

 Create new journal, update, delete, close

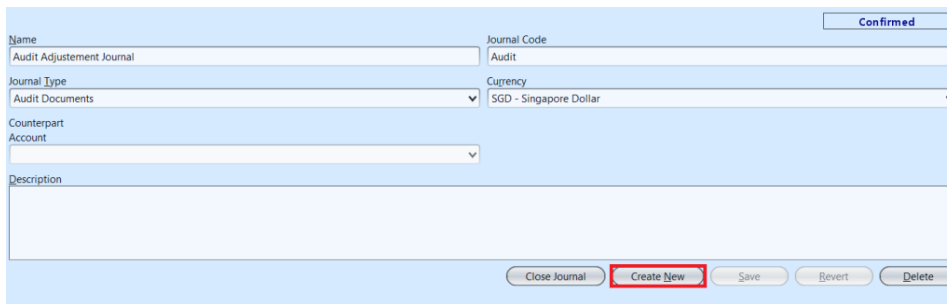

The screenshot shows a software interface for managing journals. At the top, there is a search bar and a 'Journal' tab. Below it is a table listing various journals with columns for Name, Journal Code, Currency, and Journal Type. The table includes entries like 'Audit Adjustment Journal', 'Bank - DBS - SGD Journal', 'Cash Journal', etc. Below the table, there is a form for creating or editing a journal. The form has fields for Name, Journal Code, Journal Type, Currency, Counterpart Account, and Description. A 'Confirmed' button is visible next to the Name field. At the bottom of the form, there are buttons for 'Close Journal', 'Create New', 'Save', 'Revert', and 'Delete'.

Field Name	Description	Mandatory Information
Name	Name of the journal	Y
Journal Code	Custom code for the journal	Y
Journal Type	Types of journal	Y
Currency	Which currency to use for the journal	Y
