

Stock Take

Stock Take view allows user to track stock take progress in a warehouse and update the inventory information (i.e. quantity, batch number, expiry date) based on the stock take report. Variance in the quantity and value can be viewed in the report after Stock Take process is completed.

Below are available actions for the user from **“Stock Take”** view:

-  Create new stock take
-  Update stock take details
-  Delete stock take
-  View and search for stock take details

Stock Take List Stock Take

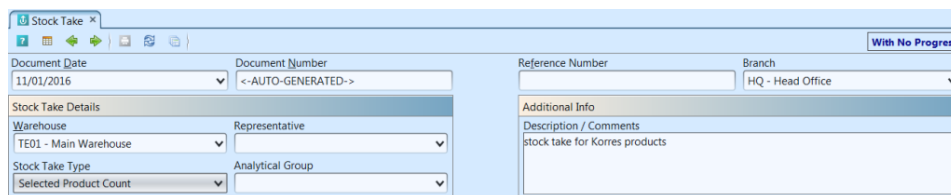

Field Name	Description	Mandatory Information
Document Date	Creation date of the document	Y
Document Number	Document number of the purchase order	Y
Reference Number	Code for easy reference search of the document	N
Branch	Name of company's branch	Y
Warehouse	The warehouse of which to do the stock take	Y
Representative	Name of staff assigned to process the stock take	N
Stock Take Type	Complete Locator Count or Selected Product Count	Y
Analytical Group		N
Description / comments	Additional information in regard to the stock take document	N
Product Brand	Select product brand(s) to filter products	N
Filter	Enter keyword(s) to filter / search for products	N
Select Locators	Select which Locator(s) to do the stock take	Y
Locator	Locator of the product in the warehouse	Y
Product	Product code of the item	Y
Description	Product Description	Y
UOM	Type of the item (Unit of Measure)	Y
Counted Qty	Quantity as counted by stock take process for batch of items	Y
Batch #	Batch number of the counted item	N
Mfg. Date	Manufacturing date of the product batch	N
Expiry Date	Expiry date of the product batch	N
Comments	Comments on the counted line item, if any	N
Total Counted Qty	Total Counted Quantity for all the items listed in the stock take document lines items	Y
Variance Qty	Total Variance Quantity (difference between system total quantity vs total counted quantity) for all the items listed in the stock take document lines items	Y
Grand Total	Total variance in value for all the items listed in the stock take document	Y

Create New Stock Take:

1. Click on **“Create New”** at the top right of screen of **“Stock Take List”** tab, it will open **“Stock Take”** tab with empty form

2. Fill up stock take’s information on the top half of screen. For **“Stock Take Type”**:

- Complete Locator Count: all products in the selected locator(s) will be counted and have its batch information updated (if there is any variance)
- Selected Product Count: only products entered into the stock take document in the selected locator(s) will be counted and its batch information updated (if there is any variance)

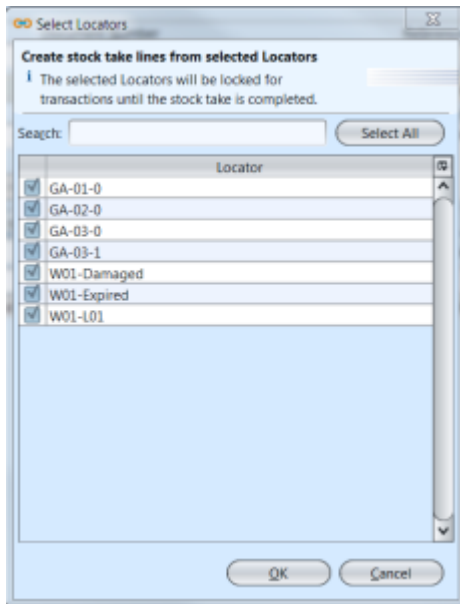

The screenshot shows the 'Stock Take' form. At the top, there's a 'With No Progress' button. Below it, the 'Document Date' is set to '11/01/2016' and 'Document Number' is '<-AUTO-GENERATED->'. To the right, 'Reference Number' is empty and 'Branch' is 'HQ - Head Office'. The 'Stock Take Details' section includes 'Warehouse' (TE01 - Main Warehouse), 'Representative' (empty), 'Stock Take Type' (Selected Product Count), and 'Analytical Group' (empty). The 'Additional Info' section has a 'Description / Comments' field with the text 'stock take for Korres products'.

3. Click **“Save”** button at the bottom right side of screen

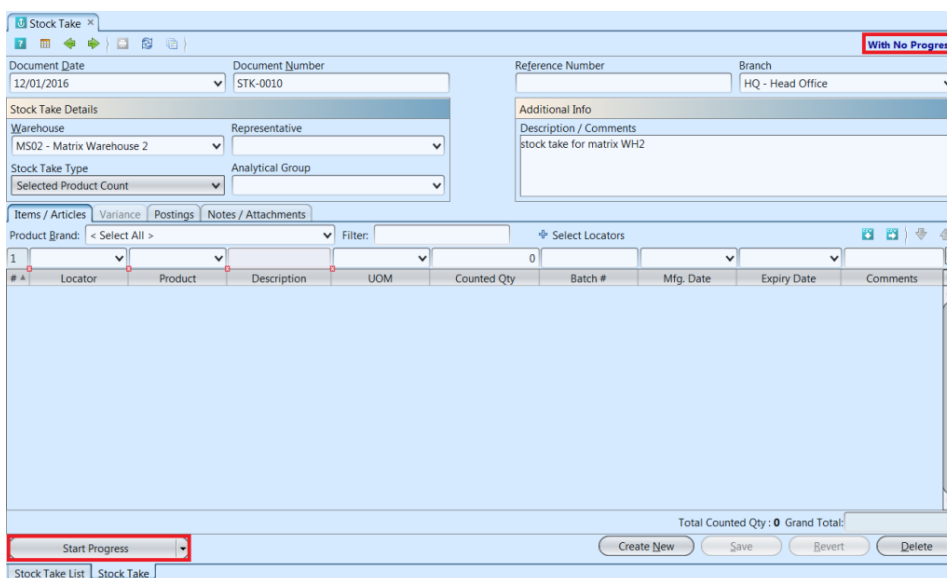

4. Select which locator(s) to do the stock take from by clicking on **+ Select Locators** in the middle of the screen. User to tick checkbox(es) of locator(s) in the pop up window. Alternatively, user may select all the locators by clicking on the **“Select All”** button. Click OK to confirm the selected locator(s)*

***Note:** Locators of staging type will not be included in the Stock Take process. Locator(s) selected will be reserved and thus unavailable for selection in other Stock Take document, until the former Stock Take document is posted.

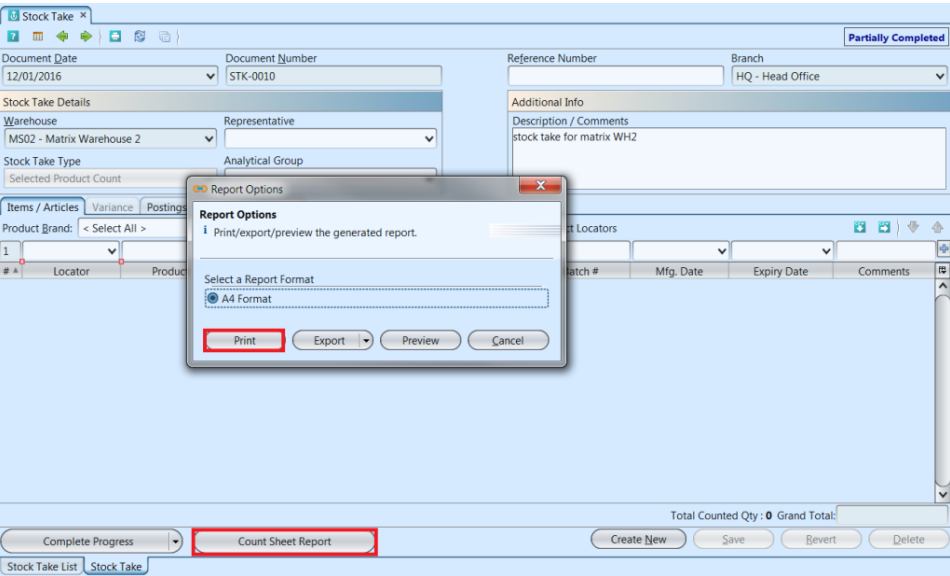

5. Click on **“Start Progress”** button at the bottom left of screen to start the stock take process*.

***Note:** Starting a stock take process will lock all the products in the selected locator(s) from being use by other processes with inventory movement. User can stop / pause a stock take progress at any time and continue / start again another time. Stopping the stock take will unlock the selected locator(s) and make available the inventory inside these locators for other processes (**WARNING:** this may cause discrepancy in the stock take result)

6. Click on **“Count Sheet Report”** button at the bottom of screen and print the stock take count sheet

report

- Locator Count Sheet: count sheet listing (selected) products in the selected locator(s), to be use for Stock Take process

7. User may filter the products list by selecting a brand from **“Product Brand”** drop-down list.
8. Add locator into the stock take by searching for the locator from the “Locator” drop-down list in the table on **“Items / Articles”** tab
9. Select product to add into the stock take from the “Product” drop-down list in the table on **“Items / Articles”** tab. Enter the product’s UOM, counted quantity, and batch information for the selected locator, and click  button to add the product info into the stock take document. If there is no changes to the batch information, user may leave the batch number textfield empty
10. Repeat steps 8-9 to add more products into

the stock take*

***Note:** User can stop / pause a stock take progress at any time and continue (start) again another time. Stopping the stock take will unlock the selected locator(s) and allow inventory inside these locators for other processes (**WARNING:** this may cause discrepancy in the stock take result)

The screenshot shows the 'Stock Take Progress' screen. At the top, there are tabs for 'Items / Articles', 'Variance', 'Postings', and 'Notes / Attachments'. Below these, there's a 'Product Brand' dropdown set to 'LOA - Locker' and a 'Filter' field. A 'Select Locators' button is also present. The main area contains a table with the following columns: #, Locator, Product, Description, UOM, Counted Qty, Batch #, Mfg. Date, Expiry Date, and Comments. The table lists six rows of 'LOACKER CHOCOLATE CHIP COOKIES 12 X 250GRAMS' with different locators (Loa10, Carton-12) and batch numbers. At the bottom, there's a 'Total Counted Qty: 0 Grand Total:' label and a row of buttons: 'Complete Progress', 'Count Sheet Report', 'Create New', 'Save', 'Revert', and 'Delete'. A 'Stock Take List' link is also visible.
