

Point Of Sale (POS module)

The purpose of the Point Of Sale application is to handle direct sales transaction at the company's warehouse or designated area. Posting of retail transactions from POS Entry to account is done here. Below actions are available under **"Point of Sale"**:

- 🔗 Create new sales transaction;
- 🔗 Update, delete, view and search for sales transaction details.
- 🔗 View/Post POS Entry Day Closings to General Ledger

The screenshot displays the 'Point Of Sale' application window. At the top, there are search and filter options for Customer, Sales Rep, Year, From, Till, and Branch. Below this is a table with the following columns: Date, Document #, Reference #, Customer #, Customer Name, Sales Rep, Currency, Grand Total, and Status. The table contains four rows of data. At the bottom, there is a status filter set to 'Drafted / Confirmed', a 'Total SGD' of 5289.34, and navigation controls.
