

Invoices

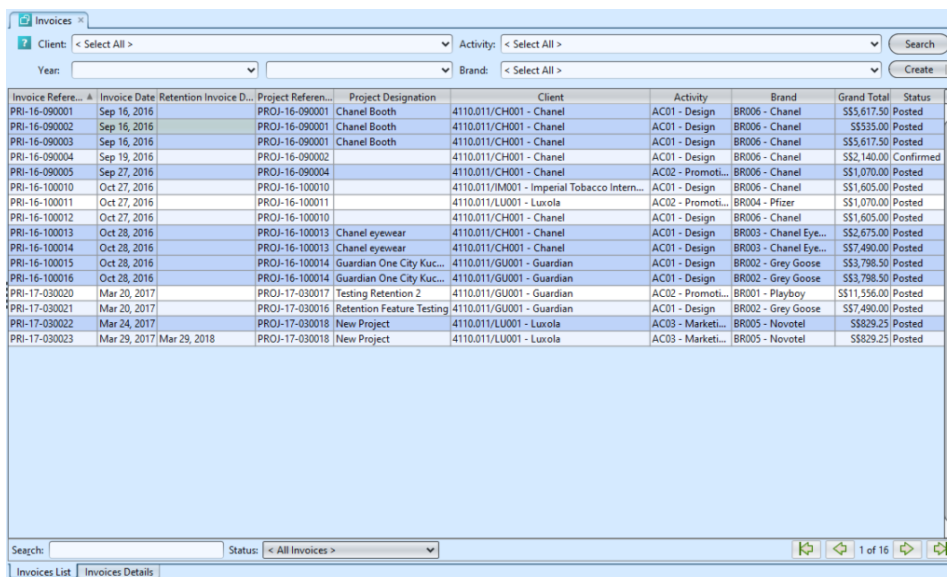

Invoices view allows user to view and manage projects' invoices for service rendered. Issuing of the invoices itself is to be done from **"Projects"** application.

Below are available actions for the user from **"Invoices"**:

 View and search for invoice details

 Issue proforma invoice: see **"Projects"** application

 Track and issue Retention Claim Invoice

The screenshot displays the 'Invoices' application interface. At the top, there are filters for Client, Activity, and Brand, along with a search button and a 'Create' button. Below the filters is a table with the following columns: Invoice Refere..., Invoice Date, Retention Invoice D..., Project Referen..., Project Designation, Client, Activity, Brand, Grand Total, and Status. The table contains 16 rows of data, including invoice numbers, dates, project names, client details, activities, brands, and financial totals.
