

# Purchase Masters

## Purchase Price List

Create new purchase price list; update, delete, view and search for purchase price list details

## Vendor Product Mapping

Create mapping scheme to associate vendor's products' numbers with company's products' numbers. Create new vendor product mapping scheme; update, delete, view and search for vendor product mapping scheme details

## Store Model

Store Model is a model to replenish a store (warehouse) to a certain stock level as defined in the Store Model; user can define minimum or maximum quantities for a certain product for each store in GOOMI.
