

Create Product

The purpose of this application is to allow the user to create products in the system for sales and inventory controlled.

1. Click on Inventory tab/Masters/Products/Product Details tab to add new product item
2. Fill in the product item's information. Textfields marked with "x" are mandatory.
3. Click **"Save"** button to save progress
4. Click **"Confirm Product"**

The screenshot displays the 'Create Product' form in an inventory management system. The form is titled 'Products' and has a 'Drafted' status. It contains various input fields for product details, including Part Number, Wmo Code, Product Name, Product Type, Category, Bag Code, HS Code, Customs Duty, Product Brand, Market Category, Length, Width, Height, Weight, Trade Type, Country of Origin, Available From, Discontinue From, Replacement For, and Description. There are also checkboxes for 'Has Bill Of Materials', 'Promotional Product', and 'Is Active'. At the bottom, there are buttons for 'Copy Product', 'Confirm Product', 'Create New', 'Save', 'Revert', and 'Delete'. The 'Save' button is highlighted with a red box. The left sidebar shows the navigation menu with 'Inventory' and 'Products' highlighted. The bottom status bar shows 'Products List', 'Product Details', and 'Import Master Product(s)'.
